Every year the Soane Foundation celebrates Sir John Soane's singular contributions as an architect and educator by bestowing Soane Foundation Honors on present day innovators, leaders, and visionaries in the fields of architecture, design, urban planning, architectural education and philanthropy at a celebratory dinner in an architecturally significant venue in New York City. In the last number of years, we have focused on professionals working specifically with museums and cultural institutions, as Sir John Soane was the architect of the first purpose-built public picture gallery (what we today call a museum) at Dulwich, just south of London, in 1811. [See separate page past recipients roster.]

SUPPORT from this EVENT:

Gala proceeds benefit the Soane Foundation and ultimately the Soane Museum in London, a renowned museum in the home of one of the most venerated architects in history. Funds raised go towards ongoing conservation of the collections – with over 49,000 objects and items, it is a never ending task. In addition, funds raised at the event will support operations and programs here in the United States.
